Sponsorship Brochure

Taking the African Internet to the

Next Level

Through Policy, Collaboration and Education.

AIS '19

African Network Information Centre (AFRINIC) is the regional Internet numbers registry for Africa tasked with the responsibility of equitably distributing Internet number resources in the continent. AFRINIC exists to grow Internet for the sustainable development of Africa. One of the prominent ways in which AFRINIC implements this vision is through major events held around the continent to champion this debate. It is for this reason that AFRINIC will be holding the 30th series of these meetings. Dubbed Africa Internet Summit (AIS'19), the meeting will take place from 9 – 21 June 2019 in Kampala, Uganda.

AFRINIC Meetings are held twice a year rotating in countries across the continent. They provide a platform for all African governments and global stakeholders to discuss and benchmark issues regarding Internet policy, Internet governance, ICT4D, Internet access and technical capacity building.

Kampala, Uganda

Fondly known as the green city in the sun, Kampala is the commercial and administrative capital of Uganda. Spread over more than twenty hills, it is one of the fastest growing cities in Africa.

Few cities across the African Continent can rival the happy life of Kampala. Some have branded it the “The City that never sleeps”, Kampala is the city where being bored is never an option.

Kampala brims with life, from its exuberant markets to its bustling streets and festive cultural scene. The Ugandan capital is home to some of the best cultural arts festivals in East Africa, and there is never a boring day in the city.

Participation

AIS'19 is being organized in partnership with the NFT Consult Uganda who is the local host. It will therefore have high level government representation as well as contribution. The event is also open to over 1,500 AFRINIC members from the 54 countries of Africa as well as our global stakeholders and partners.

The meeting will bring together leaders and top executives from Internet Service Providers and organizations concerned with Internet policy and development from around the world. Renowned speakers and experts will also be at hand to give perspectives, presentations and participate in panel discussions on latest developments and case studies in e-Infrastructures, applications, research, entrepreneurship and more.

Discussion Topics

AIS'19 will provide a platform for delegates to deliberate and address the following key questions;

- What strategies can be used to drive IPv6 Deployment throughout the continent?
- How Internet infrastructure can be improved and expanded to ensure low cost, resilient and secure Internet access and keep our content and traffic local?
- How to ensure affordable, always-on Internet access for all so that all African citizens can reach their potential?
- What policies are guiding Internet number resource distribution in Africa and how to ensure that all stakeholders participate in the Policy Development Process (PDP)?
- How to keep our networks safe from cyber attacks, Distributed Denial of Service (DDoS) and shutdowns?
- How to harness the power of the Internet to help end poverty and ensure prosperity for all?

Why Sponsor?

Africa is progressing towards greater connectivity and the future depends on how AFRINIC alongside key stakeholders such as Governments, regulators, network operators, academia and business leaders can harness the massive opportunities available.

AIS'19 will provide a unique opportunity for your organization to share and showcase your vision for this aspiration as well as open multiple business opportunities brought by the global audience attending the event.

Specifically, sponsoring AIS'19 will provide your company with an excellent opportunity to;

- Create, maintain and enhance brand awareness among a relevant high-profile audience
- Build and reinforce strategic relationships with key players in the ICT sector across the globe
- Network and generate new leads and ROI
- Access a broad network of leaders and decision-makers
- Intellectually influence industry peers

Sponsorship Opportunities

There are three main sponsorship categories for AIS'19.

Content Sponsorship

This is the most prestigious sponsorship category in the event. It involves plenary session engagements with discussants.

Networking Sponsorship

This category revolves around all the social events at AIS'19, which form an integral part of the event programme

In-Kind Sponsorship

This is the more personalized category that is tailor made to the specification of sponsors
